REMEMBER:

YOUR SAFETY AND HEALTH IS OUR PRIORITY

Since we are very concerned about your safety and our staff's, we require that all shooters have a mask on when entering the building. We will be taking six people down range at a time. Three will be outside the range waiting and three will be inside qualifying. After that they will continue to the classroom for paperwork and completion of the class. We will have Sanitizer in the classroom and will be spacing all participants at least 6 feet apart. We want to limit any risk to you and still get the job done so please help us be safe.

PREPARING FOR THE RANGE - WHEN YOU ARRIVE PLEASE HAVE THE FOLLOWING:

- Please have your Mask on
- Please have you magazines loaded in this configuration: 3 magazine with 12 rounds each and one magazine with 14 round. If you do not have high capacity magazine load your 10 round magazines to 9 rounds. If your magazines hold less than 10 rounds, please load them to 6 rounds each. We will be shooting 50 round courses for each weapon you are qualifying with. Please bring all fifty rounds (for each weapon) with you to the range when qualifying.
- Please have a holster on the **OUTSIDE OF YOUR BELT**, no in the pants holster, shoulder holsters or ankle holsters
- Have your respective Identifications with you:
 - HR-218 Only: Police ID (Active or Retired) and your Pistol Permit
 - HR-218 / Armed Security Combo: Police ID, Pistol Permit and your Security Guard Card (if this is your first time bring your Driver's License).

All class sizes have been cut in half to ensure your safety. Please be patient and we will speed the process to a successful conclusion. We deeply appreciate your business and loyalty!!

Thank You All,

Roland Grant, Director of Training
